WRDSB PARENT INVOLVEMENT COMMITTEE CONFERENCE

BUILDING SKILLS TO NAVIGATE THE SCHOOL YEARS

APRIL 18TH, 2015: 8:30 AM TO 3PM

TIME	TOPIC	SPEAKER
9:00 am	KEYNOTE: Diagnosed with several learning disabilities as a child, Lesley was inspired by a teacher to "overcome the odds" and follow her passions in life. Learn how you too can make a difference in the life of your child. This is a very inspiring, refreshing, enlightening talk — you will walk away changed. See http://www.dreaminprogress.com/motivational.html for additional details.	Lesley Andrew, Canadian actress, motivational speaker
10:30 am	1. Anxiety in Children – Is your child anxious about succeeding in school, or even going to school? This speaker from Lutherwood will provide some very practical steps that will help you support your child. See http://www.lutherwood.ca/ for information on further programs.	Joel Fairlie
	2. Win Win in any kind of meeting – this speaker from Conrad Grebel's Peace & Conflict Studies program will show you how to cooperate in meetings so that everyone can win. This includes school council meetings. https://uwaterloo.ca/conflictmanagement/	Jason Dykstra
	3. Getting ready for kindergarten – what can you do to get your child ready for school? No, it does not involve teaching them the multiplication tables at age 4. This experienced daycare teacher from the YMCA will show you how easy it really is to get ready. http://www.ymcacambridgekw.ca/en/index.asp	Stacey McCormick
	4. Autism spectrum kids and video games – how to use them for good. If your child is very focused on video games, learn how to turn that passion into a career path and social connector mechanism. Speaker is one of the founders of Every1games. http://every1games.ca/	Sarah Drew
	5. Elementary Math: What's the problem? Experienced WRDSB educator explains the new math and what your child is learning in school.	Christine MacTavish

10:30 am	6. Advocating for your child – Experienced WRDSB	Barbara Williams &
continued	educators explain what to do if your child needs	Sharon Newmaster
	support with a school issue. Who do you talk to,	
	what can you say?	
	7. What can you do with science? Some students	Perimeter Institute
	mistakenly think Science is difficult, boring, or cold.	
	Learn how to change their minds and see the	
	amazing experiences and careers that studying	
	science can bring to your student.	
	8. Helping our Children Thrive in the Outdoors:	Jane Thompson
	Remember playing outside all day until the street	3ae 16p36
	lights came on? Many children today are growing up	
	without meaningful contact with the natural world.	
	_	
	Explore balancing outside time with screen time in	
	this digital age.	
12.45	1 Manay Congret Vide approving and very shill are and	Robin Taub
12:45 pm	1. Money Smart Kids – convinced your child spends	Robin Taub
	their allowance or their pay the minute they receive	
	it? The author of A Parent's Guide to Raising Money	
	Smart Kids explains basic concepts in financial	
	literacy for you and your child.	
	http://robintaub.com/	
	2. Suicide Prevention – Sadly, this touches many of	Tana Nash
	our lives. Come and learn to recognize the signs. This	
	speaker from the Waterloo Region Suicide	
	Prevention Council will talk about prevention,	
	intervention, and postvention.	
	3. Teens & Books – how to encourage reading	Sue Danic
	Contrary to popular opinion, many teens do like to	
	read but have trouble finding something worth	
	reading. Learn from an experienced High School	
	librarian what to look for and how to encourage	
	those conversations.	
	4. Easing the transition from High School to	Melissa McNown Smith
	University – Student Success teacher from the	
	University of Waterloo explains how to avoid the	
	rude shock that first year students often experience.	
	https://uwaterloo.ca/student-success/	
	5. Math Enrichment for Grades 6 to 12 - The	Ian VanderBurgh
	University of Waterloo hosts free weekly enrichment	
	activities called Math Circles. Hear the Centre for	
	Math Education director explain what you can do at	
	home to encourage "out of the box" math thinking.	
	The aim of the CEMC is to encourage enjoyment,	
	confidence, and ability in math and computer science	
	connucince, and ability in matir and computer science	

	among Canadian students.	
	http://cemc.uwaterloo.ca/	
	6. Walk a mile in my shoes – This is an interactive	Kate Cressman
	workshop that gives participants an understanding of	Rate Cressillari
	what it may feel like to have a learning disability by	
	engaging in a series of exercises. Current	
	information and research on LDs is incorporated, as	
	well as how they may impact a child's mental health	
	and everyday functioning at home and school.	
	Practical strategies that can help support well-being	
	and success in children with LDs across environments	
	will also be introduced.	
	http://www.childdevelop.ca/about-us	
	7. Improving reading skills is fun – If your child	Barbara Williams
	thinks reading is too hard, this workshop will offer	
	practical tips on how to change attitudes and	
	improve success.	
	8. French at home – You don't speak French but	Wanda West
	your child is in French Immersion or Core French.	
	What can you do at home to help?	
2:00pm	1. Nurturing the Scientists in your Family - Children	Les Asselstine
	are naturally curious and usually ask lots of	
	questions. Even when we do not know the answers	
	questions. Even when we do not know the answers ourselves, we can encourage that curiosity and help our

5. Specialist High Skills Majors - The SHSM is a ministry-approved specialized program that allows students to focus their learning on a specific economic sector while meeting the requirements for the Ontario Secondary School Diploma (OSSD) and assists in their transition from secondary school to apprenticeship training, college, university, or the workplace. This sector specific training can include anything from Information Technology to Horticulture. Come and see what options your child has in the WRDSB. Coop programs will also be covered.	Ron Hoekstra
6. Homework – what really matters? Homework causes arguments in many homes. What can parents do to help without actually doing the homework for their child? Among other things, expectations and work habits are factors make a difference. Learn what you can do in your home.	ТВА
