### PROJECTED ENROLMENT – STATUS QUO AND SCENARIO 9

### STUDY OBJECTIVES

Objective	Meets	Doesn't Meet
Address future development plans and demographic shifts		
Balance enrolment to capacity		
Address the diverse needs of all students by creating a balance of enrolment that recognizes these needs		
Increase the number of students within a safe walking distance to school		
Keep in mind the impact on the senior elementary and secondary school boundaries		
Minimize the impact on students where transitions are proposed		

Notes:  
OTG Capacity = On the Ground Capacity – Ministry of Education assigned loading of students in permanent space in a facility  
A factor has been applied to each school's enrolment to account for out of boundary student gains and losses due to magnet programs such as French Immersion (FI) and Special Education Area Classes (SpecEd)  
Enrolment projections are approximations calculated based on the most current information available
