Study Objectives : Comments

Objective	Comments
To determine the size and program configuration of the replacement Riverside PS, having regard for Board Policy 3002: Elementary School Size and Configuration	- New Riverside P.S. constructed as JK-6 for approx. 550 students. - John Mahood P.S. reaches similar size. - JK-6, 7-8 in line with Policy 3002. - All schools meet recommended # classes/ grade.
To develop a transitional accommodation plan for elementary school enrolment in the Town of Elmira while awaiting the completion of the replacement Riverside PS.	TBD
- To establish boundaries that are long-term (approx. 10 years) that consider: - Walking distances (community/ neighbourhood-level schools) - Efficiency of transportation - Capacity of schools - Current and future population density and demographics - Proximity to other schools - Impact on feeder and surrounding schools	- Reduction of enrolment at Park Manor P.S. due to reorganization to 7-8. Better matched to capacity (no addition/ portables necessary). - John Mahood P.S. require 4-5 classroom addition or portables in long term to accommodate enrolment. - Transportation – slight decrease in transportation as Gr. 6's spread across 2 sites.
To minimize the impact on students where changes are proposed (consideration for grandparenting, phasing, transitions, etc.)	TBD
