# **Projected Study Area Enrolment 2014-2023**

Projections are estimates based on several assumptions and use the most current data available. Only those units in plans of subdivision with development applications currently under review by the Township of Wilmot have been included in the projections.

### **Study Goals**

- Goals explain what the Working Group intends to achieve through the boundary study process:
  - To address the capacity issues at the study area schools
  - To develop a strategy that is long-term (approximately 10 years), taking into consideration current and future population density and demographics
  - To minimize transitions for students where changes are proposed though grandfathering/phasing

### **Study Goals Continued...**

- To strengthen the Board's business case for additional capacity funding for current students and as residential development plans progress in the Township of Wilmot
- To provide equitable learning opportunities for students and staff by moving towards the following criteria (from Board Policy 3002 – Elementary School Size and Configuration)
  - JK-6 facilities between 350 and 400 students (approx. 2 classes per grade)
  - JK-8 facilities between 500 and 650 students (approx. 2 classes per grade)
  - Minimizing the potential for schools with enrolments over 650 students

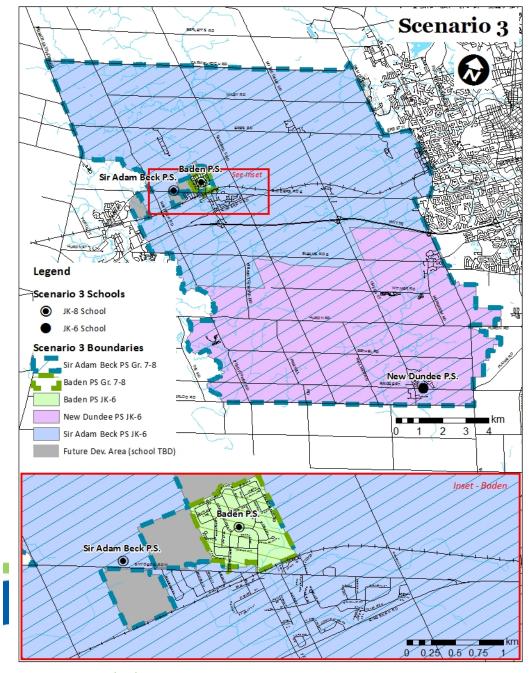

### **Study Objectives**

- Objectives are specific and measurable statements of the goals. They provide the criteria to evaluate the scenarios:
  - To reduce enrolment at Baden Public School beginning in the 2015/16 school year
  - To increase the number of students housed in permanent capacity within the study area in a cost-effective way, recognizing that there can be no additional capacity built prior to the 2017/18 school year

### **Scenario 3**
