- 1.1 It is the policy of the Waterloo Region District School Board (WRDSB) to promote the development of environmentally sound values by modeling appropriate practice, by supporting environmentally sound activities and by supporting a comprehensive environmental education program, subject to budget limitations, recognizing that:
 - 1.1.1 the WRDSB has identified environmental issues as a priority;
 - 1.1.2 a sustainable environment must be a global goal;
 - 1.1.3 the educational community has a major leadership role in teaching, promoting and actively demonstrating the principles, values and behaviours necessary to live in harmony with our environment.
- 1.2 The WRDSB will endeavour to design safe school grounds with an ecological focus, recognizing the importance of creating and sustaining healthy, natural school grounds that support child development and learning.
- 1.3 The WRDSB recognizes its responsibility to the environment to promote the consumption of water from local sources by refraining from the purchase and sale of commercially bottled water in single use plastic containers except in extenuating circumstances.
