REPORTS

STRATEGIC PLAN - EQAO AND GRADUATION RATE OUTCOMES FOR 2018-2019

This report was provided for information.

Director J. Bryant started the presentation by sharing an update on the status of the Strategic Plan. As WRDSB moves into the fourth year of the implementation and monitoring of the Strategic Plan, senior staff have continued to reflect on the impact of collective work and the ability to meet the needs of each and every student. While EQAO results and graduation rates suggest improvement, we are not yet satisfied and remain committed to implementing our operational goals that include a focus on mathematics, graduation rates and student and staff well-being.

Superintendent E. Ranney shared an update on EQAO Assessment results. Since first implementing the Board’s Strategic Plan in 2016, EQAO assessment results for WRDSB students have on the whole improved. WRDSB has seen improvement in four of the six areas in Primary and Junior Assessments. Since 2015-2016, student achievement has improved in both Grade 9 math assessments. Results for the OSSLT have decreased in this same period. While concerning, provincial results are also trending in the same direction. As part of the ongoing Strategic Planning and School Improvement work, staff will be supporting schools to continue to address both mathematics and literacy from kindergarten to grade 12.
Superintendent R. DeBoer shared an update on graduation rates, which is another key outcome measure of our Strategic Plan. Staff are pleased to see that the target of an 85% five-year graduation rate has been met. While the results are positive, staff remain committed to ensuring each and every student who attends a WRDSB school graduates and is prepared for success on their chosen pathway.

Superintendent P. Rubenschuh provided an update on the Equity and Indigenous Action Plan. Engagement outcomes taken together with our EQAO, graduation rate, MDI and Workforce Census data, make it clear in order to achieve our aggressive goals and targets we need to create a more inclusive, more equitable education system that recognizes and celebrates the lived experiences of our students and their families.

Associate Director L. Read shared that the Research Department has been engaging in statistical analysis of data from WRDSB students to determine exactly what the predictors of graduation are that can help ensure that 100% of students graduate from the WRDSB. This predictive model is entitled Road Map to 100. She reviewed the indicators of student success for successful transitions to secondary schools. This model reflects a significant shift in work as staff use data to get more precise in the strategies and interventions utilized.

Director J. Bryant thanked all those involved in the Strategic Plan. The October Strategic Plan Board report will provide an update on the operational plan, including new strategies reflective of the data, of the feedback received and of the need to continue to develop a more equitable and inclusive experience for our students, staff, families and community.

Trustees asked a number of questions of clarification.

**SUSPENSION/EXPULSION REPORT AS OF JUNE 30, 2019**

This report was provided for information.

Superintendent B. Lemon provided Trustees with information regarding monthly and year-to-date suspension/expulsion data for the 2018-2019 school year.

As a result of Trustee inquiries, Superintendent B. Lemon shared additional information on Keeping Kids in School, a Ministry of Education pilot project WRDSB was selected to participate in. This pilot project will provide another avenue to learn about suspension processes and the impact of suspensions on racialized and marginalized students.

Trustees expressed an interest in seeing more data regarding the number of suspension days and the number of students suspended. Superintendent B. Lemon shared that the Ad Hoc Suspension Review Committee will have an opportunity to explore the data, within privacy limits.
When asked about staff training, Superintendent B. Lemon confirmed that Annual Safe Schools training is provided for administrators and managers, and that the training includes Progressive Discipline.

The Canadian School Board Association conference for 2020 is in Banff, Alberta.

Trustee C. Millar asked that staff review the recent email received from Regional Chair Karen Redman regarding Human Sex Trafficking in Waterloo Region and asked that students be educated on this matter. Director J. Bryant confirmed that staff are reviewing the information and resources available to determine age appropriate education. If needed, an update report can be brought back to the Board. Trustee S. Piatkowski suggested that the education should also address the risks of becoming perpetrators of sex trafficking, not just victims.

Trustee K. Woodcock asked for an update on PPM 162 Health and Physical Education exemptions and the status of WRDSB’s exemption procedure. Director J. Bryant confirmed that
staff are working on this procedure and that it will be implemented before the November 30, 2019 deadline outlined by the Ministry of Education. The finalized process can be shared with Trustees.
