Subject: Staffing Information – Retirements and Resignations

Recommendation

This report is provided for information of the Board.

Status

The employees listed in Appendix A of this report have received acknowledgement of their retirement or resignation.

Background

The board’s practice is to receive information regarding staff retirements and resignations at regular monthly board meetings.

Financial implications

Expenses are within the existing approved budget.

Communications

Employees listed in this report have communicated through Human Resource Services.

Prepared by: Graham Shantz, Coordinating Superintendent, Human Resources & Equity Services, in consultation with Coordinating Council.

Report to Board of Trustees
October 25, 2021

Subject: Student Suspension/Expulsion Report
September, 2021

Recommendation
This report is provided for the Waterloo Region District School Board with information regarding monthly and year-to-date suspension/expulsion data.

Status
Comparing year to date from September 2020 and September 2021, elementary suspensions have increased by 37 and secondary suspensions have increased by 94.
Comparing year to date from September 2020 and September 2021, school expulsions have remained at 0 and board expulsions have remained at 0.
The most recent month’s suspension and expulsion data is included below. The data is accurate up to, and including, the date of collection.
Data from 2020/2021 were collected during a school year where students were engaged in learning in three modes: in-person, adaptive hybrid and distance learning.

Suspensions
- Total elementary school suspensions in September 2020 - 19, year to date - 19
- Total elementary school suspensions in September 2021 - 56, year to date - 56
- Total secondary school suspensions in September 2020 - 5, year to date - 5
- Total secondary school suspensions in September 2021 - 99, year to date - 99

Expulsions
- Total school expulsions in September 2020 - 0, Year to Date 0
- Total school expulsions in September 2021 - 0, Year to Date 0
- Total board expulsions in September 2020 - 0, Year to Date 0
- Total board expulsions in September 2021 - 0, Year to Date 0

Violent Incidents
The term violent incident is defined as the occurrence of any of the following or the occurrence of a combination of any of the following: possessing a weapon, including possessing a firearm, physical assault causing bodily harm requiring medical attention, sexual assault, robbery, using a weapon to cause or to threaten bodily harm to another person, extortion, hate and/or bias-motivated occurrences.
- Total elementary/secondary violent incidents in September 2020 - 0, year to date 0
- Total elementary/secondary violent incidents in September 2021 - 5, year to date 5

**Background**
As requested by the Board, suspension/expulsion data will be presented at the Board meeting each month.

**Financial implications**
There are no financial implications.

**Communications**
Upon request, suspension/expulsion data is communicated to the Ministry of Education for statistical purposes.

Prepared by: Bill Lemon, Superintendent, Student Achievement & Well-Being, Joe Bell, System Administrator, Learning Support Services, and in consultation with Coordinating Council
Subject: Strategic Plan - Operational Plan for 2020-2021 Outcomes

Recommendation
This report is for information to the Board and provides Trustees with an update on staff’s work regarding the Board’s Operational Plan and related outcomes for 2020-2021- our fifth year of implementation of our current Strategic Plan.

Status
Given the unprecedented nature of this past 19 months and uncertainty associated with responding to the challenges presented by the pandemic, it was necessary to revise our operational plan for 2020-2021. WRDSB’s Strategic Priorities, as reflected in our operational plan, remain the pillars of our work, and continue to drive our operational plan and priorities that have become critically important as staff respond to the realities and impact of COVID-19 along with the global call to action as a result of the ongoing impact and harm of systemic racism and oppression. Our operational priorities for 2020-2021 (see Annex A) included:

- Continuing our commitment to an organizational culture rooted in human rights and equity
- Ensuring the safety and well-being of staff and students
- Ensuring the continuity of quality learning for all students
- Supporting our most vulnerable students and closing their gaps in learning
- Ensuring continuity of effective operations of the school district

Guided by the WRDSB’s three strategic priorities, students have continued to learn and staff have continued to support student achievement - all while simultaneously maintaining a focus on the well-being, health and safety of students, staff and our broader community. Our community has consistently shared that safety and well-being and human rights and equity need to be of foremost concern and must remain priorities. We also know that there are students who have experienced gaps in their learning as a result of the pandemic; for some, pre-existing gaps have widened, and we have put a clear plan in place to assess, identify and provide intervention to ensure that these gaps are addressed and closed.

As a result, staff has continued to invest in our Equity & Indigenous Action Plan - not as a separate plan, but as an essential and foundational element of the work we have been doing and will continue to do. Our ability to be responsive to these challenges is dependent on an organization that ensures the continuity of all of its operational elements including; human resources and equity services; financial resources and facilities; information technology resources and communications. All of these operational priorities work interdependently with the others. We cannot address our most vulnerable learners, for example, without also addressing safety, well-being and
issues of human rights and equity while simultaneously providing adequate human and financial resources - they are inextricably linked to one another.

Research suggests that effective change in education will take three to five years of sustained focus and includes monitoring implementation as a critical element of this process. With the support of the Research department, we have continued to monitor the implementation of strategies and related outcomes of the operational plan (see Annex A and Annex B).

We are deeply grateful for the energy and dedication of our administrators, educators, support staff, and central staff who continue to focus on the needs of each and every student, despite the many challenges. We are so proud of our students, their ability to adapt, their many accomplishments and their continued commitment to learning and lending voice and insight to our work. We are profoundly grateful for the patience and support of our families and community partners whose engagement and active participation is critical to ensuring the WRDSB is serving our community, and we are appreciative of Trustees’ leadership, active engagement and confidence in staff as we have navigated this tumultuous time.

Public education has never been more important, and our ability to be responsive to the changing needs of our students and their families during such a difficult time is critical to the future learning and well-being of our students and our community.

**Background**

The Waterloo Region District School Board engaged in a collaborative strategic planning process with the goal of creating a multi-year strategic plan that articulated the priorities, desired outcomes, and commitments of the Waterloo Region District School Board for a 3-5 year period. On June 20, 2016 the Waterloo Region District School Board approved the Strategic Priorities, Outcomes and Commitments. Each year, staff provide trustees with regular updates on our progress towards meeting the outcomes related to our strategic priorities as well as the revised annual operational plan for that year. The WRDSB Strategic Plan was due to be refreshed during the 2020-2021 school year; however, the impact of the pandemic required that these plans be put on pause.

In March of 2020, the World Health Organization declared COVID-19 a global pandemic. What followed from this declaration included the closure of our schools, the launch of a fully distance learning program from March through to June, and major efforts to ensure the continuity of all operational aspects of the school district. The WRDSB formed a Pandemic Response Team and a Return to School and Work Committee and together, with input from our students, staff and families, established principles that would guide our decision making and work as we responded to the pandemic.

As the WRDSB has responded to the many challenges encountered as a result of the COVID-19 pandemic, we have continued to gather feedback and input from students,
staff and families. It is recognized that we need to prioritize this complex body of work in responding to the realities of the pandemic while also delivering on our commitments to do more and do better to support all those who have been disproportionately impacted as a result of COVID-19. Clarifying our operational priorities has also served to stabilize the system as we focus our energies on what matters most.

Our updated Conditions For Learning Framework (Annex C - Conditions for Learning) also flows from our ongoing community engagement efforts. As a key tool to support “how” we must go about the work of the strategic plan, it clearly provides this informed approach where it states:

“Together we will nurture supportive relationships in an inclusive, safe and caring environment and practise culturally relevant and responsive pedagogy and assessment, creating equitable conditions for learning and optimal outcomes for each and every student”.

This directs all staff to continue to build a more equitable and inclusive learning community, where human rights and equity are held as fundamental values of our work. The COVID-19 pandemic has shone a light on the many inequities faced by students and their families, reinforcing the foundational importance of human rights and equity.

Financial implications

On August 10, 2020, the WRDSB Board of Trustees approved the WRDSB 2020-2021 Budget. Quarterly budget updates have been provided to the Board (January 18, March 22, 2021, June 14, 2021). The final financial results of the WRDSB’s operations in the 2021-22 school year will be presented to the Board of Trustees on November 15, 2021 as part of the presentation of the WRDSB’s audited financial statements.

Communications

The Communications Department has developed a multi-dimensional approach aimed at reaching every parent/guardian/student/staff member/stakeholder with meaningful communication during the pandemic. A commitment to accessible, timely, transparent and two-way communication has been the cornerstone of our approach. Key elements of the communication plan include:

- Health and Safety Protocols and Reminders
- COVID-19 Dashboard
- School and community COVID-19 case communications support
- Regular All-Staff updates to support communication and well-being
- News and School Updates
- Guide for families and staff
- Celebrating and recognizing the contributions and achievement of staff, students and the broader WRDSB community
- Frequently Asked Questions

Staff continues to provide trustees and the public with regular updates and details
related to COVID-19 and our operational priorities.

Communications will continue its commitment to ensuring that the Strategic and Operational Priorities have a prominent and dynamic presence as part of Waterloo Region District School Board communication efforts.

The Director’s Annual Report also utilized the Strategic and Operational Priorities as a framework for reporting back to our community the work of our district, our schools, our staff, our students, our parents, guardians and caregivers, and our community partners.

Prepared by: jeewan chanicka, Director of Education, Lila Read, Associate Director of Education, Dana Liebermann, Senior Manager of Research & Evidence-Based Practice, and Senior Team, in consultation with Coordinating Council
Operational Plan - 2020-2021

In March of 2020, the World Health Organization declared COVID-19 a global pandemic. What followed from this declaration included the closure of our schools, the launch of a fully distance learning program from March through to June 2020, and major efforts to ensure the continuity of all operational aspects of the school district. Given the unprecedented nature of this past year and uncertainty associated with the remainder of this school-year, it is necessary to revise our operational plan for 2020-2021. WRDSB’s Strategic Priorities, as reflected in our strategic plan, remain the pillars of our work, and continue to drive our operational plan and the priorities that have become critically important as staff respond to the realities and impact of COVID-19 along with the global call to action to respond to the ongoing impact and harm of systemic racism and oppression. Our operational priorities for 2020-2021 are detailed in the dashboard below.

To help us communicate our progress in a transparent and simplified way we use an operational dashboard. The traffic lights in the dashboard are intended to give a sense of the progress we are making on implementing specific strategies:

- A red light indicates we are still in the planning phase and implementation is not yet underway.
- A yellow light indicates that a plan is in place and that we are in the initial phases of implementation.
- A green light means implementation is on track.

- A blue check means implementation of a given strategy is complete.

Email: stephen.lecce@pc.ola.org

Dear Minister Lecce,

It is incredibly unfortunate that the construction of a new school will often fuse frustration with celebration. An occasion of such great importance to our Board and the community has, so many times in our experience, been tarnished when the school opens without the capacity to accommodate the entire student population.

We recommend a thorough review of the funding formula for new schools with the goal of making it more flexible and responsive to changing circumstances.

Since 2005 the Greater Essex County District School Board has aggressively, yet responsibly, sought provincial funding to replace what was once among the oldest inventories of schools in Ontario. We are profoundly grateful that the province has consistently recognized the necessity and the quality of our proposals.

However, under the financial formula for capital projects, a new school will frequently be funded based on out-dated data - information on enrolment and community demographics from years before the school is actually built. We are not able to consider future growth, which we have found regularly occurs because of a new school in the community.

This necessitates the use of portable classrooms to manage an overflow of students from the day the school opens. We must explain to students and their families that, despite our expertise and best intentions some students don’t get full use of the new building. I am sure, you can understand how discouraging this can be for everyone.

As advocates for strong and vibrant public schools, now and into the future for our students, we strongly recommend that a review of the funding formula for new school builds reflect the realities of our communities and the families that invest in them alongside us.

Sincerely,

Alicia Higgison

The Honourable Stephen Lecce
Minister of Education
5th Floor
438 University Avenue
Toronto, ON M5G 2K8

Dear Minister Lecce,

On Tuesday, August 31st, 2021, the Board of Trustees passed a motion directing me to write to you in support of the Toronto Youth Cabinet’s “Menstrual Equity” program.

In the Upper Grand District School Board, we have had the good fortune of being able to support our own “Period Equity” project through the generosity of the Upper Grand Learning Foundation. We are very proud of the work that has been done in this area to support menstruating students and staff.

Many boards do not benefit from the financial support of a foundation and are otherwise unable to maintain a Period Equity project. This creates inequity for students as only those in boards with financial resources can benefit from this program. This is a fundamental human rights issue and is critical for student well-being and success. The simple way to resolve this inequity is to have all school boards receive funding for this in their GSN.

We were approached by the Toronto Youth Cabinet with a request to add our names to the long list of school boards that are calling on the government to provide funding for these crucial products and create true equity for menstruating people across our province. The UGDSB is proud to stand with our colleagues in
urging the Ministry of Education to provide full funding for menstrual products for all school boards.

Thank you for your consideration of this vitally important request.

Sincerely yours,

Martha MacNeil
Chair of the Board
Upper Grand District School Board

Dear Minister Lecce, Minister Elliott and Dr. Klassen:

RE: Vaccination Requirements for Extracurricular School Athletics

At the direction of the Board of Trustees of the Avon Maitland District School Board, at our September 28, 2021 meeting, we respectfully request that you reconsider your positions on vaccination for extracurricular sports participants in our schools. Our requests are:

1. Mandate vaccination for all organized extracurricular sports where masking and distancing protocols cannot be maintained; and/or
2. Provide antigen test-kits for all participants of these extracurricular sports.

Although extracurricular sports are considered part of the school experience, they are run, organized, and coached by volunteer teachers who have taken the responsibility on for this full school experience. Though every student should have the opportunity to participate in school extracurricular sports there are many reasons why a given student may not qualify to become a member of a team. We believe that if a student chooses to decline the vaccine, this should be one of the disqualifiers. We do recognize that the choice to not be vaccinated may originate from various reasons. In some cases, the solution might include barrier free access to mass immunization clinics; credible/validated sources of information to promote informed vaccine literacy; and ensuring vaccine hesitant students and caregivers had local and provincial, culturally sensitive opportunities to obtain information. These circumstances must be mitigated to allow every student their best opportunities.

If we allow unvaccinated athletes to participate, not only is there a heightened risk to the physical health of all the players and their families, it adds an unnecessary layer of uncertainty – mental health effects - to the whole process. Parents and students may not want to play sports with an unvaccinated and unmasked individual. Teachers/coaches may feel unsafe with coaching unvaccinated and unmasked players. For them, a layer of protection has been removed from the classroom setting. Activities involving close contact may be less available since coaching is provided by volunteers and those individuals could decide to withdraw their
services for their own safety. Furthermore, with a patchwork of policies around the province, regional and provincial tournaments will likely be impacted. Boards, Public Health Units and/or municipalities with varying vaccine mandates, may refuse to allow unvaccinated students from elsewhere into their buildings and those same boards may not allow their athletes to participate against unvaccinated teams.

While respecting the fact that all students should ideally have equal opportunity to participate in athletic activities, during these difficult times we must consider safety as our number one priority.

Thank you for your consideration.

Sincerely,

Robert Hunking

Toronto, Ontario M7A 2A5

Dear Minister Lecce:

This is a letter to inform you of a motion approved by Trustees of the Thames Valley District School Board (TVDSB) at its 2021 September 28th, regular meeting of the board. The motion relates to the provision of funds for COVID-19 rapid antigen testing for student athletes:

"That the Board request the government provide the funds for testing student athletes who have a first dose of the vaccine and wish to participate in extracurricular sports."

It has been communicated to families that TVDSB secondary students who wish to participate in extracurricular sports must have received their first vaccination dose by 2021 September 17th, and be fully vaccinated no later than 2021 November 1st.

Students who have received one dose must undergo COVID-19 rapid testing twice a week, with results confirmed visually with school staff. Once a second dose is received, students can participate fully without the need for rapid testing.

Thames Valley recognizes the importance of extracurricular activities for the mental and physical well-being of students. Providing these opportunities while putting in place procedures to ensure the health and safety of students and staff is important. Confirming all participants are fully vaccinated or working towards full vaccination is a critical layer of protection.

We recognize that not all families can equally access COVID-19 rapid antigen tests – cost, and ability to purchase these tests may present a barrier to some students. By providing rapid antigen testing free of charge to all student athletes will ensure equity across our Board.
As such, the Board requests that the province fund the costs of the COVID-19 rapid antigen tests, as well as reimburse those students who have purchased rapid antigen tests since this protocol came into effect on 2021 September 17th. Full funding will help school boards and their public health partners protect the health and safety of students, staff and the community and help keep our schools open.

We appreciate the extraordinary costs brought on by the pandemic and we do not want funding to be an obstacle to equal access to student participation in extracurricular sports.

Sincerely,

Lori-Ann Pizzolato, Chair
Thames Valley District School Board

cc Trustees
M. Fisher, Director of Education
2021 October 5

The Honourable Stephen Lecce
Minister of Education
438 University Avenue, 5th Floor
Toronto, Ontario M7A 2A5

Dear Minister Lecce:

This is a letter to inform you of a motion approved by Trustees of the Thames Valley District School Board (TVDSB) at its September 8th, 2021, regular meeting of the board. The motion relates to the provision of Health Canada approved respirators for daily Personal Protective Equipment (PPE) use:

“The Minister provide to all education staff Health Canada approved respirators for daily PPE use. That Education staff that obtain their own Health Canada approved respirators be permitted to wear these in the workplace, provided staff follow the application and removal guidelines stipulated by the Canadian Centre for Occupational Health and Safety (CCOHS). Staff will continue to be supplied with the Ministry approved PPE.”

Thames Valley is committed to the health and safety of staff, students and families. Working with our local public health units we continue to monitor the COVID-19 situation, including ongoing risks related to the incidence of variants of concern (VOCs), and adjust our health and safety procedures as necessary.

As stated in the Ministry’s COVID 19: Health, Safety and Operational Guidance for Schools 2021-22, there is not one specific measure that will prevent transmission from occurring in schools, but rather there are multiple elements that contribute to making schools healthier spaces and reduce the risk of infection to in-person attendees.

According to the World Health Organization, properly fitting respirators filter out at least 95% of particles in the air, including large and small particles, and provides the wearer with a more reliable level of protection as compared to medical face masks.

As such, providing education staff with Health Canada approved respirators for daily PPE use would increase staff and student safety and help keep our schools open to in-person learning. We are committed to training and supporting staff in the proper fit and use of respirators should they wish to wear them as part of their PPE.
We appreciate the extraordinary costs brought on by the pandemic and would appreciate the Ministry adding respirators to the list of provided PPE equipment.

Sincerely,

Lori-Ann Pizzolato, Chair
Thames Valley District School Board

Sent via email to Christine.elliott@pc.ola.org

Dear Minister Lecce and Minister Elliott:

At their regular meeting on September 28, 2021, Rainbow District School Board Trustees approved the following motion:

**Motion: 21-R103, M.Stringer/D.Morrison**

*That the Board write a letter asking the Minister of Education and the Minister of Health to consider amending the Immunization of School Pupils Act to include Covid-19 as a “designated disease”.*

*Carried*

While there is currently no approved vaccine for children under 12, we understand that a vaccine is imminent making this motion both timely and relevant. When COVID-19 cases rise in the community, they inevitably make their way into our schools. The variants of concern, which are more transmissible, increase the risk of infection.

.../2
Our students and staff have been living and learning with COVID-19 for more than a year and half, spanning three school years. The shift from in-person to remote learning, and the need to self-isolate when cohorts are dismissed by Public Health, has led to constant interruptions. For many students, especially our most vulnerable populations, these interruptions result in learning loss and a detrimental impact on mental health and well-being.

In approving this motion, Rainbow District School Board joins its voice with other school boards in the Province who are advocating that vaccination for COVID-19 be mandatory to attend school in Ontario. Medical Officers of Health have clearly stated that mandatory vaccination is another layer of protection to ensure the safety of staff, students, families and the communities that we serve. It will also go a long way in bringing the pandemic to a much-anticipated end.

Thank you for your consideration.

Sincerely,

Doreen Dewar
Chair

Toronto, ON M7A 1L2

Sent via email to Minister.edu@ontario.ca

Dear Minister Lecce:

At their regular meeting on September 28, 2021, Rainbow District School Board Trustees approved the following motion:

**Motion: 21-R104, J.Kosmerly/D.Morrison**
*That the Special Education Advisory Committee recommends that Rainbow District School Board send a letter to the Minister of Education endorsing Bill 172, the Education Statute Law Amendment Act (Fetal Alcohol Spectrum Disorder).*

*Carried unanimously*

Members of the Rainbow District School Board Special Education Advisory Committee (SEAC) spoke passionately about the need to recognize Fetal Alcohol Spectrum Disorder (Fasd) at the SEAC meeting on September 15, 2021.

The Centre for Addiction and Mental Health defines Fasd as a lifelong disability that affects the brain and body of individuals who were exposed to alcohol in the womb. The impacts and effects of Fasd vary from mild to severe and may include learning disabilities; impaired memory, reasoning and language comprehension and expression; impulsivity and poor judgement; inappropriate social behavior; and poor emotion regulation.

While there is no cure, research has shown that early and appropriate supports, such as special education and behavior programs, can have a positive impact. For this reason, Rainbow District School Board Trustees are united in their support of Bill 172, which, when combined with additional necessary resources, is intended to improve the educational outcomes and experiences of students with Fasd.

.../2
Most importantly, it requires Teachers’ Colleges and Early Childhood Education programs to include training on this disorder.

Children and adults with FASD require a safety net and supports in the health, education and social services sectors. This legislation will benefit students with FASD, leading to a greater quality of life and a greater quality of life for some results in a greater quality of life for all.

Sincerely,

Doreen Dewar
Chair

RE: Request to add COVID-19 as a “designated disease” to the Immunization of School Pupils Act

Dear Dr. Moore,

The Minister of Education has publicly indicated that, per your advice, he will not make vaccines mandatory for students. The Trustees of the Halton District School Board would like to bring to your attention a letter we wrote to the Ministers of Education and Health advocating for the addition of COVID-19 as a “designated disease” under the “Immunization of School Pupils Act” (ISPA). We believe that the addition of COVID-19 as a “designated disease” will provide a valuable tool to reduce vaccine hesitancy and ensure the safest possible school environments for students, staff, their families and their communities. This would align with the purpose of the ISPA which is to increase the protection of the health of children. It would also put the onus on the parents/guardians to complete the prescribed program of immunization.

The ISPA could also be used to combat parent/guardian vaccine hesitancy and increase student COVID-19 vaccination rates, which is increasingly important as Health Canada is poised to approve vaccination of 5-11 year old children. As you are aware, an exemption process is available in the ISPA that would provide a mandatory educational component to parents/guardians who are simply hesitant or choose not to vaccinate their children. This mandatory education component is currently absent with regard to COVID-19.

We are aware that other school boards, as well as the Ontario Public School Boards' Association, have also requested the Minister of Education to add COVID-19 to the compulsory vaccination list.

Thank you for your dedication to Public Health in Ontario and thank you in advance for considering our request.

Sincerely,

Andréa Grebenc

Re: Decision Making Regarding the Return to Traditional Semester Model

Dear Minister Lecce,

Secondary Schools in the Halton District School Board (HDSB) are currently operating with a modified semester model to satisfy both the Ministry of Education and Public Health COVID-19 related Guidelines. This model has students taking four courses during the semester, however, they attend only two courses per day for a week and then attend the remaining two courses the next week. This alternates week by week. This model was chosen due to its flexibility to quickly pivot back to a traditional four-course per day model within a maximum of two weeks' notice. The modified semester model is not optimal for student achievement or student and staff well-being. For example, students with learning challenges who take a General Learning Strategies course are not as consistently supported in this model as they would in a traditional semester course. In addition, and learning time is adjusted daily to allow for outdoor mask and refocusing breaks as students spend two and a half hours in each class. All students would benefit from the return to the traditional semester model as it would support their academic and social and emotional well-being.

During the summer, the Ministry indicated that the use of modified semester models would be temporary, as it focussed on controlling COVID in schools at the beginning of the school year with the assumption that it significantly reduces student contacts. The reality is that teenagers are currently congregating and mixing before and after school, at lunchtime, for co-curriculars, and evening activities; be it jobs or recreational activities. There is very little benefit to continuing with modified semester schedules when all of these other factors are at play, given that the other COVID prevention measures in place appear to be working well over an extended period of time.

Halton's COVID-19 vaccination rate as per the Region's website for 12-17 year-olds is exceptional. The rate for this age group is 93% with a single dose and 87% that are fully vaccinated. Additionally, Milton's rate for vaccination for this age group is 98% with a single dose and 91% fully vaccinated.
The COVID-19 vaccine along with protocols and PPE set out in collaboration between our school board and local health authorities is working exceedingly well as demonstrated by the extremely low transmission rate seen in our secondary schools. Out of 19,390 students learning in-person in HDSB secondary school facilities over the past month, we have had COVID-19 transmission to only two students out of a total of nine student cases. Considering the increased transmission rate of the Delta variant, our defences against in-facility transmission are outstanding.

When Trustees asked HDSB staff if a vaccine uptake threshold or other criteria had been shared with the school boards to determine when the modified semester could be adjusted back to the traditional semester model, staff responded that no such information had come from the Ministry. This is disheartening as everyone is seeking positive news, especially related to the efforts to date.

As the recently announced rapid antigen testing program focuses on the local Public Health Unit as the decision-making authority, the Trustees of the Halton District School Board request that the decision-making around the return to the traditional secondary school semester model also reside with the local Public Health Units in collaboration with School Boards. They most clearly understand their local contexts with regard to vaccination rates, organizational adherence to IPAC protocols and COVID-19 outbreak data.

We look forward to hearing from you on this matter.

Sincerely,

Andréa Grebenc

Dear Minister Lecce and Minister Elliot:

The Trustees of the Keewatin-Patricia District School Board unanimously adopted the following motion at the most recent regular meeting of the Board of Trustees on September 14, 2021:

MOVED that Trustees give authority to the Chair of the Board to ask that the Immunization of School Pupils Act be amended to include COVID-19 as a “designated disease”.

Currently, there is no mandate for eligible students to be vaccinated against COVID-19. The addition of COVID-19 as a “designated disease” within the Immunization of School Pupils Act will serve important purposes:

- First, it may inspire an increased uptake of the vaccine which will provide protection for those who are too young or medically unable to be vaccinated in school communities. This will result in a safer learning environment for students, staff, and their families.
- Second, the Act provides a mechanism for exemptions that includes parental education on vaccination. This element is missing right now in consideration of COVID-19 vaccination for students.

We are adding our voices to the Ontario Public School Board Association, People for Education, and a number of boards who have made this same request.
On behalf of the Trustees of the Keewatin-Patricia District School Board, I would like to thank you in advance for your consideration of this request to further improve the safety of the learning environments in our district and across Ontario.

Sincerely,

Keewatin-Patricia District School Board

Cecile Marcino
Chair of the Board of Trustees

M7A 2J3

The Honourable Stephen Lecce
Minister of Education
438 University Ave, 5th Floor
Toronto, Ontario
M7A 1N3

Dear Ministers Elliott and Lecce:

At its meeting on 28 September 2021, the Ottawa Carleton District School Board unanimously approved the following recommendation:

THAT the Chair write a public letter to the Ministers of Education and Health to advocate for an evaluation by provincial health authorities and experts as to the wisdom of adding the COVID-19 vaccination to the list of compulsory vaccinations for all eligible students.

As government ministers, you have access not only to the expertise of provincial and local public health authorities but also to the expertise of the Ontario COVID-19 Science Advisory Table to integrate and assess the best Canadian and global evidence on the safety and efficacy of available COVID-19 vaccines.

All of us are aware of the effectiveness of mandatory vaccination programs against diseases such as smallpox, measles, and polio. For the past 18 months, the impact of COVID-19 has affected the safety and wellbeing of Ontario students and their families as well as their access to education, to devastating effect. If a mandatory vaccination program for students would be a safe and effective way to curtail the spread and severity of COVID-19 infections, please have the approved COVID-19 vaccines evaluated with a view to adding COVID-19 to the current list of compulsory vaccinations.

Sincerely,

Lynn Scott
Chair, Ottawa-Carleton District School Board

Karen Redman, Regional Chair, Region of Waterloo
Regional Council, Region of Waterloo
Region of Waterloo
150 Frederick Street
Kitchener, ON, N2G 4J3

Dear Chair Redman and Regional Council,

In June 2021, the Waterloo Region District School Board (WRDSB) Board of Trustees voted to end the School Resource Office (SRO) Program, effective immediately, due to the disproportionately negative impact of the SRO Program on Black, Indigenous, and racialized students.

On behalf of the Board of Trustees for the WRDSB, I am writing to request funds previously used to deliver the SRO Program within the WRDSB be reallocated to community-based services for children and youth. Our staff look forward to working together to provide these services in consultation with our Indigenous, Black and racialized students and communities.

The WRDSB and the larger community are tasked with ensuring our students’ well-being, safety and ability to thrive. Reallocating the SRO funding to community based services for youth, will support the students in our community with programs staffed by professionals that have expertise in helping youth in a positive, inclusive environment where they feel comfortable and welcome.

This is an important opportunity to support students and ensure safe and caring school communities. We ask for the Regional Council’s serious consideration of this request as we all work together to positively support students in our community.

Sincerely,

Joanne Weston
Chairperson of the Board of Trustees
Waterloo Region District School Board

DISTRICT SCHOOL BOARD

October 15, 2021

The Honorable Stephen Lecce, Minister of Education
14th floor, 315 Front Stree West
Toronto, ON  M7A 0B8

Via email: minister.edu@ontario.ca

Dear Minister Lecce:

On behalf of the Special Education Advisory Committee (SEAC) for the Rainy River District School Board (RRDSB), recently received a letter from the Halton Catholic District School Board (HCDSB) SEAC, regarding its support of Bill 172, the Education Statute Law Amendment Act for Fetal Alcohol Spectrum Disorder (FASD). This proposed legislation will require all boards of education throughout Ontario to develop policies and guidelines with respect to FASD and require the Ontario College of Teachers and ECE programs to provide training with respect to FASD.

An FASD diagnosis impacts children’s ability to thrive in school due to the combination of deficits associated with the diagnosis and their often limited capacity to understand expectations and demands. For this reason, staff need to be taught about the early signs and symptoms of FASD and how to provide appropriate accommodations in the classroom, and the school boards need to develop policies and guidelines with respect to FASD for the academic environment.

Like the HCDSB, the RRDSB asks that you acknowledge our support for Bill 172 as it will help our students and educators experience success in their classrooms and improve their overall wellbeing.

We appreciate your time and consideration.

Sincerely,

Becky Andrusco, Chair
Rainy River District School Board SEAC

c. Ontario District School Board SEACs
   Heather Campbell, Director of Education RRDSB

TOGETHER, WE EMPOWER ALL STUDENTS TO BELIEVE IN THEMSELVES, TO ACHIEVE, AND TO DREAM.
October 15, 2021

The Honorable Stephen Lecce, Minister of Education
14th floor, 315 Front Stree West
Toronto, ON M7A 0B8

Via email: minister.edu@ontario.ca

Dear Minister Lecce:

On behalf of the Special Education Advisory Committee (SEAC) for the Rainy River District School Board (RRDSB), I am writing to express our support of the concerns brought forward by the Durham District School Board (DDSB) SEAC, and the letter of support from the Algoma District School Board (ADSB) in regard to On-Line Learning Supports and Universal Design for Learning in provincial on-line learning resources, and the platforms used to access these resources.

The RRDS SEAC shares the concern that all on-line and/or e-learning courses must be consistently maintained with enabled links and resources that meet accessibility standards (e.g. closed captioning). With the current focus on ensuring that remote or virtual learning is readily available, it is essential that course materials be created and maintained in a manner that allows all students to learn and demonstrate their learning. We agree with the statements put forward by the DDSB SEAC, namely, that a focus on creating accessible resources for online content is critical for the ongoing learning of students with special education needs.

We appreciate your time and consideration.

Sincerely,

Becky Andrusco, Chair
Rainy River District School Board SEAC

c. Ontario District School Board SEACs
Heather Campbell, Director of Education RRDSB
