

WRUSB [aikis

## FORWARD

The first ever WRDSB Student Census was launched in April of 2021. The data shared this report summarize overall combined results from both the parent/guardian questionnaire (for students in kindergarten to grade 3) and the student questionnaire (for students in grades 4 or higher). The WRDSB Census includes data on over 30,000 students, which gives the board a powerful opportunity to better understand and support our students. For most questions, students and parents/guardians could select more than one identity. In these cases, the sum of the percentages in a data table may exceed 100\%. For more details and background information we encourage you to review the reports and resources on the WRDSB Student Census website.

RESPONSE RATE

## 8,368

parent/guardian respondents ( $\mathrm{K}-3$ ) approximately $40 \%$ of 20,000 K-3 students

22,871
student respondents (4-12+) approximately $50 \%$ of 45,000 4-12+ students

## FIRST NATIONS, MÉTIS AND INUIT IDENTITY

Nearly 3\% of WRDSB Student Census participants identified as First Nations, Métis, and/or Inuit. The hundreds of students who identified as Indigenous showed us the wide diversity of Indigenous families in WRDSB schools. A total of 253 students and parents/guardians communicated more details about their First Nations, Métis, and Inuit identity. A total of 66 different First Nations, Métis, and Inuit Nations, communities, and identities were shared by students and parents/guardians.

Indigenous identity

Indigenous identity
Count
Anishinaabe (eg.
Algonquin, Ojibwe,
Potawatomi)
Haudenosaunee (eg.
Cayuga, Mohawk,
Onondaga, Oneida,
Tuscarora)
Métis 31

Cree 25

Mi'kmaq 20
Other Nations/
communities/identities

The examples provided in parentheses, beside Anishinaabe and Haudenosaunee, are specific First Nations groups that were mentioned by Student Census participants. The First Nations listed in the parentheses do not represent a full list of Nations and communities that could identify as Anishinaabe or Haudenosaunee.

ETHNIC AND CULTURAL ORIGINS/RACIAL GROUP IDENTITY

Ethnic and cultural origins are very diverse and complex. While nearly all students might have identified as Canadian, just over $60 \%$ chose to do so. Approximately $40 \%$ of students and parents/guardians identified at least two ethnic and cultural origins. About one-third of Student Census participants identified as racialized and/or Indigenous. This included more than $7 \%$ of student who identified as having more than one racial group identity or a multiracial identity.

| Ethnic or cultural origin Canadian | Percentage 62\% | Racial group identity | Percentage |
| :---: | :---: | :---: | :---: |
|  |  | Black | 6.0\% |
| English | 11.4\% |  |  |
| German | 9.0\% | East Asian | 7.0\% |
| Irish | 7.8\% | First Nations/Métis (Michif)/Inuit | 1.2\% |
| Scottish | 7.8\% | Latina/Latino/Latinx | 2.5\% |
| East Indian | 6.0\% | Middle Eastern/ North | 71\% |
| Chinese | 4.4\% | African/West African | 7.1\% |
| Pakistani | 3.9\% | Southeast Asian | 3.2\% |
| Dutch | 3.6\% | South Asian | 12.1\% |
| French | 3.6\% | White | 66.7\% |
| Arab | 3.5\% | Racial identity not | 1.3\% |
| African-Caribbean/Black Caribbean | 2.6\% | Total census |  |
| Italian | 2.3\% | participants | 73 |
| American | 2.3\% |  |  |
| Polish | 2.2\% |  |  |
| Middle Eastern | 2.2\% |  |  |
| Mennonite | 1.9\% |  |  |
| Portuguese | 1.7\% |  |  |
| East African | 1.7\% |  |  |
| Serbian | 1.5\% |  |  |
| Total census participants | 28837 |  |  |

104 ethnic or cultural origins were identified by at least 15 students. Over 100 other ethnic origins were identified by fewer than 15 students each.

## CITIZENSHIP \& FIRST LANGUAGES

While nearly $15 \%$ of students in the Census were born outside of the lands now known as Canada, most WRDSB students identified as Canadian citizens (94\%). About 4\% indicated that they are permanent residents or landed immigrants. There were more than 200 first languages reported by participants in the Census, including five Indigenous first languages: Anishinaabemowin/ Ojibwe, Cree, Inuktitut, Métis (Michif), and Mohawk.

| Place of Birth | First Language | Percentage |
| :---: | :---: | :---: |
|  | Arabic | 4.4\% |
|  | Chinese | 3.1\% |
| 14.5\% | Urdu | 3.0\% |
| country or region outside | Punjabi | 2.6\% |
| of Canada | Hindi | 1.8\% |
|  | Spanish | 1.8\% |
|  | Gujarati | 1.3\% |
| -5.5 | Serbian | 1.2\% |
| In the country now known | Vietnamese | 0.9\% |
| as Canada | Korean | 0.9\% |
|  | Romanian | 0.8\% |
|  | Russian | 0.7\% |
| Citizenship Status Percentage | Persian | 0.7\% |
| Canadian citizen 94.2\% | Turkish | 0.7\% |
| International student 0.8\% | German | 0.7\% |
| Permanent Resident/ landed immigrant | Portuguese | 0.6\% |
| Refugee claimant 0.2\% | Somali | 0.6\% |
|  | Pashto | 0.5\% |
| convention refugee $0.1 \%$ | Tamil | 0.5\% |
| Not sure 1.0\% | Dari | 0.4\% |
| Total 28,209 | Total | 29,345 |

Student Census participants (especially younger students) may have struggled to understand how to express their citizenship status. Nearly 300 Census participants were 'Not sure' of their status.

The languages listed in the table include the top languages identified in the Census, excluding Canada's official languages English (83\%) and French (6\%).

## RELIGION/SPIRITUALITY/ WORLDVIEW

While 'Christianity (other than
Catholicism)', 'Islam', and 'Catholicism' were identified as the most common religions among students, it is important to remember that these percentages are impacted by the presence of the Catholic school board in our region (hence these percentages are likely lower than the percentages for Waterloo Region as a whole).

|  |  |  |  |  |  | Religion, Spirituality, Worldview <br> Agnosticism | Percentage |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |  | 3.2\% |
|  |  |  |  |  |  | Atheism | 7.4\% |
|  |  |  |  |  |  | Buddism | 1.9\% |
|  |  |  |  |  |  | Catholicism | 6.4\% |
|  |  |  |  |  |  | Christianity (other than Catholicism) | 28.3\% |
|  |  |  |  |  |  | Hinduism | 4.5\% |
|  |  |  |  |  |  | Indigenous Spirituality | 0.4\% |
|  |  |  |  |  |  | Islam | 14.5\% |
|  |  |  |  |  |  | Judaism | 0.5\% |
|  |  |  |  |  |  | No Religious or Spiritual Affiliation | 29.1\% |
|  |  |  |  |  |  | Sikhism | 2.8\% |
|  |  |  |  |  |  | Spiritual, but not religious | 7.4\% |
|  |  |  |  |  |  | Religion, spirituality, or worldview not listed above | 3.9\% |
| 30\% | 25\% | 20\% | 15\% | 10\% | 5\% | Total | 25039 |

Though labelled in several different ways, the most frequent response to related to religion, spirituality, and worldview was that students identified as non-religious. Approximately two out of five students identified as agnostic, atheist, and/or as having no religious or spiritual affiliation.

## GENDER <br> IDENTITY

Gender identity as shared by parents/guardians (of students from kindergarten to grade 3 ) and students (from grades 4 to 12+) are presented in separate tables. The higher number of students reporting diverse gender identities allows for more detailed information to be shared. To provide more accuracy and detail on how trans students identify, the percentage of students who selected a trans identity and another gender identity are expanded and listed.

| Gender Identity of K-3 <br> students (identified by <br> parents/guardians) | Percentage |
| :--- | :---: |
| Female/Girl | $\mathbf{4 9 . 3 \%}$ |
| Male/Boy | $\mathbf{5 1 . 1 \%}$ |
| A gender that differs from <br> their sex assigned at birth | $\mathbf{0 . 6 \%}$ |
| Total | $\mathbf{7 9 2 5}$ |

Parents/guardians of students in grades K-3 were less likely to identify their child as a gender that differs from their sex assigned at birth than were students in grades 4-12+ who identified their own gender identity.

| Gender Identity of 4-12+ students (self-identified by students) | Percentage |
| :---: | :---: |
| Female/Girl | 50.6\% |
| Male/Boy | 46.6\% |
| Gender Fluid | 1.1\% |
| Gender Non-conforming | 0.6\% |
| Genderqueer | 0.5\% |
| Intersex | <0.1\% |
| Non-Binary | 1.9\% |
| Trans | 0.8\% |
| Trans boy | 0.3\% |
| Trans girl | 0.1\% |
| Trans student | 0.2\% |
| Trans student (gender fluid) | 0.1\% |
| Trans student (gender non-conforming) | 0.1\% |
| Trans student (genderqueer) | 0.1\% |
| Trans student (non-binary) | 0.3\% |
| Trans student (gender not listed above) | 0.1\% |
| Two-Spirit | 0.1\% |
| Questioning | 0.1\% |
| Demigender | 0.2\% |
| Gender identity not listed | 0.4\% |
| Total | 21265 |

In total, 4.4\% of students in grades 4-12+ self-identified with a gender that differs from their sex assigned at birth.

## SEXUAL <br> ORIENTATION

Sexual orientation was asked of students in grades 7 and up.
Approximately $5 \%$ of student participants identified with two or more of the sexual orientation options provided in the Census.

The most common sexual orientations identified by students in grades 7+ were straight/ heterosexual, bisexual, questioning, and pansexual. A total of $23.8 \%$ of students in grades 7-12+ identified with at least one 2SLGBTQIA+ sexual orientation. The sexual orientation table includes open ended responses that were shared by more than 15 students (i.e., asexual spectrum, aromantic spectrum, and omnisexual).

| Sexual Orientation - | Percentage |
| :--- | :---: |
| Grades $\mathbf{7}$ and up | $\mathbf{0 . 3 \%}$ |
| Aromantic spectrum | $\mathbf{4 . 4} \%$ |
| Asexual spectrum | $\mathbf{1 0 . 4} \%$ |
| Bisexual | $\mathbf{1 . 0 \%}$ |
| Gay | $\mathbf{2 . 2 \%}$ |
| Lesbian | $\mathbf{0 . 3 \%}$ |
| Omnisexual | $\mathbf{3 . 1 \%}$ |
| Pansexual | $\mathbf{1 . 6 \%}$ |
| Queer | $\mathbf{4 . 6 \%}$ |
| Questioning | $\mathbf{7 8 . 1 \%}$ |
| Straight/heterosexual | $\mathbf{< 0 . 1 \%}$ |
| Two-Spirit | $\mathbf{0 . 7 \%}$ |
| Sexual orientation not | $\mathbf{1 1 8 0 8}$ |
| listed above |  |

## DISABILITIES AND HEALTH CONDITIONS

The most frequent disabilities and health conditions reported by students and parents/guardians were mental health disabilities, ADHD, and intellectual/learning/ perceptual disabilities. It is important to note that these percentages represent only those who self-identified on the Census. Medical, physical, sensory, and communicative disabilities were reported by a smaller percentage of the Census participants, but the hundreds of responses from students and parents/guardians shows the wide range of disabilities and health conditions with which WRDSB students identify.

Identifies as having a disability or health condition

| Disability or <br> health condition <br> ADHD | Percentage |
| :--- | :---: |
| Blind/Low Vision | $\mathbf{5 . 1 \%}$ |
| Deaf/Hard of hearing | $\mathbf{0 . 7 \%}$ |
| Intellectual, learning, <br> perceptual <br> Medical | $\mathbf{0 . 5 \%}$ |
| Mental Health | $\mathbf{3 . 7} \%$ |
| Physical | $\mathbf{2 . 5 \%}$ |
| Speech impairment | $\mathbf{5 . 2 \%}$ |
| Not identified above or | $\mathbf{0 . 8 \%}$ |
| specified | $\mathbf{0 . 9 \%}$ |
| Total | $\mathbf{2 8 0 2 3}$ |

The percentages related to specific disabilities or health conditions only include those who identified as having a disability or health condition. It is highly likely that the percentage of students struggling with mental health is higher than the percentage presented here who identified as having a mental health disability.

## FOOD SECURITY AND LEARNING RESOURCES <br> AT HOME (GRADE4-12+)

Questions about food security and learning resources at home were only asked of students from grades 4-12+. Questions and statements were inspired by past iterations of the WRDSB Safe, Caring and Inclusive Schools survey and the Programme for International Student Assessment (PISA) household possessions index, but were customized based on consultations with staff and community.

Frequency of
skipped meals

Frequency of nutritious
meals
Percentage

| Never | $\mathbf{1 . 4} \%$ |
| :--- | :---: |
| Rarely | $\mathbf{5 . 2 \%}$ |
| Some days | $\mathbf{1 5 . 8 \%}$ |
| Most days | $\mathbf{3 8 . 9} \%$ |
| Every day | $\mathbf{3 8 . 6 \%}$ |
| Total | $\mathbf{1 9 9 8 1}$ |

I have an adult at home who can
help me with my schoolwork

| I have the things I need <br> at home to help me <br> learn | Percentage |
| :--- | :---: |
| Totally disagree | $\mathbf{1 . 1 \%}$ |
| Sort of disagree | $\mathbf{2 . 8 \%}$ |
| I feel neutral | $\mathbf{5 . 1 \%}$ |
| Sort of agree | $\mathbf{1 7 . 8 \%}$ |
| Totally agree | $\mathbf{7 3 . 3} \%$ |
| Total | $\mathbf{2 0 1 8 7}$ |

Since the WRDSB Student Census was conducted during the third wave of the COVID-19 pandemic. The pandemic likely impacted the experiences and responses of many students as they relate to these questions.

## ACCESS TO PROGRAMS AT SCHOOL AND IN THE COMMUNITY

Questions about access to programs at school and in the community were only asked of students from grades 4-12+. Only students who responded that there was an activity they wanted to join, but they could not join were asked to specify the reason they couldn't join an activity. Students were more likely to indicate that they wanted to join school programs than community programs.

| Reason for not joining | In school | In the community |
| :--- | :---: | :---: |
| activities | $\mathbf{4 0 . 3 \%}$ | $\mathbf{2 9 . 5 \%}$ |
| COVID restrictions | $\mathbf{2 . 0 \%}$ | $\mathbf{3 . 9 \%}$ |
| Activity costs too much | $\mathbf{2 . 6 \%}$ | $\mathbf{2 . 2 \%}$ |
| Lack of transportation | $\mathbf{2 . 4 \%}$ | $\mathbf{1 . 3 \%}$ |
| Didn't feel accepted | $\mathbf{0 . 6 \%}$ | $\mathbf{0 . 5 \%}$ |
| Didn't feel safe | $\mathbf{0 . 4 \%}$ | $\mathbf{0 . 4 \%}$ |
| Activity was not acces- <br> sible | $\mathbf{1 . 6 \%}$ | $\mathbf{0 . 9 \%}$ |
| Part-time job <br> Need to care for family/ <br> siblings | $\mathbf{1 . 4 \%}$ | $\mathbf{1 . 1 \%}$ |
| Other reasons (not listed <br> above) | $\mathbf{3 . 9 \%}$ | $\mathbf{1 . 7 \%}$ |
| Total census <br> respondents | $\mathbf{1 9 3 9 3}$ | $\mathbf{1 9 5 8 5}$ |

Although students more often indicated that costs were a barrier to participation in community activities than school activities, they indicated that transportation, acceptance, part-time work, and caretaking were more often barriers to participation in activities at school than activities in the community.

HOUSEHOLD COMPOSITION AND INCOME (K-3)

Questions about household composition and household income were asked only of parents/guardians of students in grades kindergarten to grade 3. While two parent/guardian households represent the majority of households, approximately $8 \%$ reported one parent/guardian in their home. More than two-thirds of parents/guardians reported an annual household income of over $\$ 80,000$, while approximately $13 \%$ reported annual household incomes of less than \$40,000.

| Number of adults in | Percentage |
| :--- | :---: |
| household | $\mathbf{7 . 7} \%$ |
| One | $\mathbf{8 1 . 3 \%}$ |
| Two | $\mathbf{6 . 4 \%}$ |
| Three | $\mathbf{4 . 7 \%}$ |
| Four or more | $\mathbf{7 8 2 6}$ |

## Number of children in Percentage household

One
Two
5.4\%

Three
54.0\%

Four
22.5\%
6.4\%

Five or more
1.7\%

7791

| Household <br> income | Percentage |
| :--- | :---: |
| Less than \$20,000 | $\mathbf{4 . 6 \%}$ |
| \$20,000-39,999 | $\mathbf{8 . 4 \%}$ |
| \$40,000-59,999 | $\mathbf{9 . 1 \%}$ |
| \$60,000-79,999 | $\mathbf{1 0 . 0 \%}$ |
| \$80,000-99,000 | $\mathbf{1 4 . 3 \%}$ |
| \$100,000-199,999 | $\mathbf{4 0 . 9} \%$ |
| More than \$200,000 | $\mathbf{1 2 . 8 \%}$ |
| Total | $\mathbf{6 7 6 6}$ |

Since the WRDSB Student Census was conducted during the third wave of the COVID-19 pandemic, the pandemic likely impacted the household incomes for many families.

## EMPLOYMENT STATUS AND EDUCATION LEVELS (K-3)

Questions about employment status and education levels were asked only of parents/guardians of students in grades kindergarten to grade 3. Responses were sorted and presented in these table based on the identities of parents/ guardians as shared by Census participants. Results show the employment status and education levels for mothers, fathers, and guardians/caregivers ('Guardian. Caregiver', as presented in the table, represent a wide variety relationships between guardians/ caregivers and their children, including aunts, uncles, brothers, sisters, cousins, grandparents, caregivers, foster parents, and stepparents).

| Exmployment status | Mother | Father | Guardian/ <br> Caregiver |
| :---: | :---: | :---: | :---: |
| Employed full-time | 54.6\% | 89\% | 50.2\% |
| Employed part-time | 15.6\% | 2.4\% | 8.4\% |
| Stay-at-home parent/guardian | 19.9\% | 1.4\% | 9.3\% |
| Unemployed (seeking employment) | 2.7\% | 2.5\% | 2.8\% |
| Unemployed (not seeking employment) | 1.1\% | 0.3\% | 3.1\% |
| Student (also employed) | 1.0\% | 0.6\% | 2.8\% |
| Student (not employed) | 2.1\% | 1.2\% | 3.2\% |
| Retired | <0.3\% | <0.3\% | 17.1\% |
| An employment status not listed | 2.9\% | 2.6\% | 3.0\% |
| Total | 6926 | 6387 | 846 |
| Education Level | Mother | Father | Guardian/ Caregiver |
| No certificate, diploma, or degree | 2.7\% | 3.3\% | 10.8\% |
| High school diploma or equivalent | 11.6\% | 14.2\% | 24.1\% |
| Apprenticeship or trades certificate or diploma | 1.9\% | 10.3\% | 6.2\% |
| College/CEGEP/non-university certificate/diploma | 24.1\% | 21.9\% | 22.9\% |
| University certificate/diploma below bachelor level | 5.4\% | 5.4\% | 6.3\% |
| Bachelor's degree | 33.9\% | 25.2\% | 18.9\% |
| Master's degree | 16.4\% | 13.7\% | 8.8\% |
| Doctorate | 2.9\% | 5.0\% | 2.0\% |
| An education level not listed | 1.0\% | 1.1\% | <1.8\% |
| Total | 7091 | 6447 | 855 |

Since the WRDSB Student Census was conducted during the third wave of the COVID-19 pandemic, the pandemic likely impacted the employment statuses of many parents/guardians.
