Lawyer-ed is an international organization that empowers students to express their views on the legal, political, and social issues of today. We strive to enable aspiring business and legal professionals to immerse themselves in a collaborative and supportive environment as they network with industry professionals, carry out their own research, partake in networking events, and much more.

It is our goal to give students the greatest amount of exposure to the legal and business world possible and provide the necessary support as they embark on their journey!
